

KOMOLAB

# DESIGNED AND BUILT IN LOUISIANA.

SHIPPED NATIONWIDE

---

Komolab is a Louisiana-based furniture design and fabrication studio creating modern furniture for residential and commercial spaces. Guided by a focus on proportion, materiality, and function, each piece is designed with an emphasis on clean lines, natural materials, and lasting craftsmanship. The collection embraces a refined, understated aesthetic intended to complement a wide range of interiors.

In addition to its core collection, Komolab collaborates with interior designers, architects, and private clients to develop bespoke furniture tailored to specific spaces and project needs.

# COLLECTION

2026

Thoughtful proportions, natural materials, and quiet details shape the work that follows. Each piece is designed as a starting point, with dimensions, finishes, materials, and configurations that can be tailored to suit the needs of each project.

## WHITE OAK SIDEBOARD

Crafted with a solid wood frame and matching v-veneer doors, this sideboard is composed of three interconnected sections that create a balanced rhythm across the façade. Three segments join to form a seamless composition, simplifying delivery and installation. The interior can be adjustable shelving and/or drawers

## INTERVAL CREDENZA

The Interval Credenza combines a solid-wood frame and base with customizable lacquered fronts. Door and drawer arrangements can be tailored to each project, with minimal edge pulls and the option for contrasting finishes or a single wood throughout.

## KWIATEK NIGHTSTANDS

A study in contrast and proportion, this custom nightstand pairs a polished high-gloss lacquer drawer with the warmth of solid white oak. The upper drawer appears to float above an open shelf, creating a clean, architectural composition while providing both concealed and open storage.

The drawer is crafted with a solid white oak drawer box and rides on premium concealed soft-close slides for smooth, effortless operation. A hand-selected leather pull introduces a subtle tactile detail, complementing the natural character of the wood below.

## OPIA BENCH

The Opia Bench balances the warmth of upholstered seating with the clarity of a refined solid wood frame. Clean lines, exposed joinery, and carefully considered proportions create a design that feels both inviting and understated.

## NOIR CREDENZA

The Noir Credenza is made of solid oak that has been dyed and stained in layers to achieve a rich ebony tone and then finished with a high-grade polyurethane. Brass door pulls open the cabinet to two removable shelves. Even with the dark finish shown, the oak wood grain still shows itself in the surface texture. The Noir Credenza is a timeless work of modern furniture.

## FLOATING WALNUT NIGHTSTAND

Designed to free up floor space while maintaining a strong visual presence,

Two spacious drawers offer concealed storage for bedside essentials, accented by slim brass pulls that introduce a subtle contrast in material and tone. The restrained design allows the natural character of the wood to remain the focal point, creating a piece that feels both refined and enduring.

## NOLL CABINET

Shown in white oak, the Noll Cabinet explores the relationship between seating and storage in a single, refined form. Constructed from solid wood with integrated pulls and gently softened edges, the design emphasizes proportion, material, and simplicity. A concealed storage compartment keeps everyday items out of sight while maintaining a quiet, minimal presence.

## LACQUER NIGHTSTAND

Defined by the interplay of contrasting materials, this nightstand pairs a polished lacquer frame with the warmth and texture of a solid maple wood drawer and contrasting walnut front. The result is a piece that feels both refined and approachable, balancing clean geometry with natural character. The opening provides easy access to books and everyday essentials, while the solid wood drawer offers concealed storage. A leather pull adds a subtle tactile detail, reinforcing the thoughtful simplicity of the design.

## SWEVEN BARSTOOL

Defined by a distinctive triangular geometry, the Sweven Stool transforms a simple seating form into a sculptural expression of structure and balance. Angled legs converge into a continuous framework that creates strength through geometry, while giving the piece a light and dynamic presence. Named after a pre-12th century English word meaning "vision or dream", this piece is meant to inspire focus and creativity.

## WALDEN DOG BED

Inspired by Scandinavian daybeds, the Walden Dog Bed is sure to make your best friend's best friends jealous. A dense wool-melton cushion rests atop a solid wood frame accented with leather straps, creating a comfortable retreat that complements a thoughtfully designed home. The cushion cover is removable for cleaning and lined with a waterproof barrier to help protect against everyday accidents.

# CUSTOM WORK, MADE PERSONAL.

Selected collaborations shaped  
around a client, a room, and a specific  
set of needs.

01

## GREENWICH, CT.

In collaboration with Vanessa Rome Interiors in NY, this project included custom furnishings throughout the home: lacquered nightstands with walnut drawers, a second pair in solid walnut, and a matching desk with concealed push-to-open drawers.

02

## TAMPA, FL.

Delivered in person to a private client in Tampa, this project included a bespoke lacquer coffee table with hidden walnut drawers and a lacquer dresser with walnut drawers. Both pieces were developed as completely unique designs for the home.

## NEW ORLEANS, LA.

For a private residence in New Orleans, this project included a wall-mounted oak credenza with an ebony finish and lacquered wall-mounted nightstands with oak drawers washed in a matching color.
